

RII20720 Certificate II in Civil Construction

*Are you working within an operational role in the civil construction industry?
Learn a broad range of skills to plan and organise work, operate equipment,
protect underground services and support onsite plant operations.*

Course Overview

This qualification reflects the role of individuals working in an operational role in civil construction, who undertake a prescribed range of tasks using limited practical skills and fundamental knowledge, in a defined context working under supervision.

Delivery and Assessment

There are theory and practical training and assessment components to the course.

Skills will be trained and assessed through a mixture of off-the-job and on-the-job training and assessment.

You may be able to seek recognition for your previous studies or experience. Civil Train offers Recognition of Prior Learning (RPL), Recognition of Current Competency (RCC) and Credit Transfer (CT) for this qualification.

Entry Requirements

Civil Train will conduct a Language, Literacy and Numeracy (LLN) test at the qualification level for all learners as part of the enrolment process. The LLN test will determine if any support is required to undertake this qualification. Learners who are identified as not meeting course entry requirements will be assisted with referral to appropriate support services.

Learners will be required to be employed in the civil construction industry and have a Construction White Card prior to starting training on the qualification.

Course Duration

This course is offered as a 12-month traineeship in WA under a Contract of Training. Formal training may be completed in a shorter amount of time for experienced learners.

Indicative Prices

Funded: Funding may be available through the Jobs & Skills WA, Lower Fees, Local Skills program; if students are registered through a traineeship/apprenticeship pathway. Fees will depend on units selected and in which year the units commence. The student tuition fees are indicative only and are subject to change given individual circumstances at enrolment. Additional fees may apply such as student services and resource fees.

Unfunded: \$9,800

The CTF provides funding support for training of eligible workers in the construction industry. We acknowledge the support of the CTF in reducing the costs of training for eligible workers.

Contact your local super friendly consultant. They know a bucket load about training for our industry, they'll discuss training methodologies that best suit your business and they are current with the latest government incentives that may be available to your business.
